INTRODUCTION

Hill International, Inc. (Hill) is an international construction consulting firm that provides program and project management, construction management, cost engineering and estimating, quality assurance, inspection, scheduling, risk management, and claims avoidance to clients involved in major construction projects worldwide. Hill has participated in over 10,000 project assignments with a total construction value of more than \$600 billion. Hill is ranked as the 8th largest construction management firm in the United States according to *Engineering News-Record* magazine.

Through our experience and expertise, Hill offers several advantages to our clients. Hill brings an in-depth view of the risks projects are likely to encounter. We quickly identify these risks and provide recommendations on how to protect your project. Hill also brings a regional focus, with a detailed understanding of the conditions, nuances, risks, and opportunities likely to influence your project, but supported by our internationally recognized industry experts as needed. Hill's independence offers another benefit to our clients: as the largest "for-fee-only" project management firm in the U.S., we do not provide design or contracting services. This means we support your projects with no potential conflicts of interest. The combination of these strengths means, from concept to completion, Hill adds value to your projects.

Hill employs more than 3,000 professionals and support personnel in local offices around the world. Our staff includes professionals in all construction and building-related disciplines, including planners, schedulers, estimators, value engineering specialists, construction managers, resident engineers, construction inspectors and a full range of technical and support staff to represent owners. Our depth of expertise means we will always be able to support your project, regardless of manpower needs.

Hill offers its clients a full spectrum of construction dispute resolution services, enabling them to complete construction on time and within budget, while minimizing claims and other problems. Hill's project management services include:

- Program Management
- Project Management
- Construction Management
- Project Management Oversight
- Project Controls
- Staff Augmentation
- Project Labor Agreements
- Troubled Project Turnaround
